

# Greater *m*Power Tutoring

*Greater mpower, greater results*

## Types of Tutoring

### \*Foundation Building

These types of sessions are best for students that feel overwhelmed because they lack a strong foundation in the subject matter. These sessions should be scheduled at least once a week, for one to two hours at a time, until the deficiencies are cleared. Consider enrolling in our **academics focused after school care program**.

### \*Supplementary

Supplementary tutoring is best for students that need a little extra help to gain complete understanding. These sessions generally last between one and two hours and are scheduled weekly to achieve maximum results.

### \*Homework Help

This type of tutoring is best for students that have an A/B class average, understand the topic theoretically but need help with the application. These types of sessions generally last one hour and are scheduled as needed.

### \*Test/Quiz Preparation

This type of tutoring session consists of a thorough overview of the topics with explanations, sample and practice problems. These sessions generally last between one and two hours and are scheduled as tests and quizzes arise. Do yourself a favor, schedule this type of session more than one day before the test!

### \*Group Tutoring

Group tutoring is available to groups of, a minimum, three students.
